

George Kavallieratos

Full Stack Software Engineer

Flushing, NY | 917-385-0334 | georgealkaval@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

I am a software engineer with 15+ years of management experience in the food industry. I meticulously apply detail oriented strategies in pursuit of quality. I find the differences in understanding between people and I connect the dots for improved communication in a team. I notice what makes interfaces rough and think of solutions to make them more intuitive to the user.

SKILLS

- Programming Languages: Html, Css, Javascript ES6, Python
- Frameworks: Express, JQUERY, React, Flask
- Databases: MongoDB, Postgresql
- Tools: Git, Github

EXPERIENCE

Software Engineering Immersive | General Assembly | Remote | December–June 2021

Successfully completed 500+ hours of expert led instruction **Front-End and Back-End Software Development** and hands on learning of programming fundamentals and the industry's most in demand technologies. Developed projects, including:

- Blackjack Game: Built with Html, Css and Javascript. A browser game where the user plays against the computer (dealer). [Repo Link](#)
- Finding Fights: Built with NodeJs, MongoDB. A RESTful API for finding upcoming combat sport event details. [Repo Link](#)
- Kefalonia Tourism: Built with Flask, Peewee, and React. A tourism site for the island of Kefalonia, Greece. Allows users to get information on attractions there and write reviews if they have gone. [Frontend Repo Link](#) [Backend Repo Link](#)

Manager | Fresco Deli Cafe | New York City | Sept 2005 - Present

- Promoted to Manager, based on my willingness to learn all the components of the business and have the focus to make sure the best product and service is delivered.
- Managed up to 15 employees from multiple departments
- Managed a food line handling approximately 800 orders a day
- Managed time sensitive catering orders for accounts as large as 500 people
